A Contrast

Some time since we called the attention of the Democratic press of our State to the fact that the Louisville Journal favoring the election of McClellan quite as eagerly as they did and as bitterly opposing the election of Mr Lincoln, still found time and possessed the inclination to denounce the rebellion and rejoice at all the progress made in its suppression.

We had then no earnest of the course it might be expected to pursue after the election should be over but we supposed it would at least coincide with the known war policy of the Government, and would as effectually as ever lend its influence to strengthen it. It has done even more than this and we to day publish what Prentice himself says in view of the overwhelming re election of Mr. Lincoln, wherein he accepts the verdict of the American people so emphatic in the immense majorities cast for the Union cause, as definite upon at least one point, and decisive that they do not fear the acts of the Government as tending to an encroachment upon their rights. The Journal also thinks that there is always a safe resort in the power of appeal to the intelligence and experience of the people, by which the press possesses the ability to assist in moulding public policy, and correcting political errors, and this still gives an assurance of safety to the nation. Mr Prentice believes in the "Constitution as it was," and the power of the individual States to regulate their own institutions, and while differing from the Administration on many points, he has the candor to accept the voice of the nation as conclusive, surrenders his individual preferences and wishes, and calls upon the American people to unite and support the Government in prosecuting the war. It is simply true that he does not differ from Lincoln less, but he dislikes Secession far more, and recognizes as just and true the fact that, when rebellion has laid down its arms and become humbled by the nation's power, the people at large still have the power left to regulate the institution of slavery and to define the status of the rebelling States. This is the true position, and one that all can occupy with safety and honor.

Let the war once be ended and peace restored, and the South, which has never been able to excite in Northern minds the hate they have cultivated in their own, will find that the solution of all important questions can be with safety left to the magnanimity of the people they have so long striven against. That slavery is doomed seems to be fixed beyond a doubt. The decree has gone forth, not more by the proclamation of the President than by the conviction of all the world; but the consummation of this, much is to be considered, and proper steps need to be taken to provide for the accomplishment of that result, without overturning all the forms of society and destroying at one blow the prospects and business of the South. We do not expect that the Democratic press will ever lend a half way support to the war measures of the Government, that they will ever allow that anything good can be expected of the present Administration; that they will ever remember mid the horrors of civil war, and the threatened destruction of the Nation, anything but to build up party success, if it has to be done at the expense of national honor and life. There are certainly thinking, earnest reflecting men among the supporters of McClellan, who do not desire that secession shall succeed, who love country more than party, and while the signs of the times portend success and the preservation of the Union, we would be glad to see them imitate the example of the Louisville Journal and cease to clamor at governmental acts that have become national, because the people have endorsed them, no longer cavil at results that seem inevitable, but at least bear a part as citizens, that will not leave their names a disgraceful heritage to those who follow them.

Disappointments.—Our cotemporaries who are in the habit of finding the news in our columns, and of using it in their own afterwards, have a hard time of it as well as ourselves, when the wires are down. We notice in several sheets that fail to credit the news to any one, serious complaints about the state of the wires, and they express the greatest disappointment at depriving their readers of news. It is provoking, but if our neighbors were the ones who paid the $500 per month for dispatches, and who were the ones who borrowed them without a credit—or even with one—we think we would try to bear it with due resignation.

The Mails and the Wires.—We have to disappoint our readers again by giving them no telegraphic news this morning. The wires have now been down for over a week and the first news we now shall get may be by the steamer, which will probably arrive before another issue. The floods at the south have almost stopped the mails as effectually as the dispatches and the winter blast of the Cascades closes the upper river. The mails from all quarters seem to be weather bound or winter bound. Under these circumstances we can only promise to give our readers the news when we receive it.

Company B, Oregon Infantry.—We learn from an officer that this company which is composed of the Yamhill and Washington county volunteers, has arrived at Fort Hoskins, near Corvallis where it is stationed until spring. Capt Palmer appears to be very popular with the men and they promise themselves a good time when they become fixed in their quarters.

New batteries of artillery have been sent to Early from Richmond—one report says twenty seven guns. They were marked "Lieutenant General Early." Some wag wrote over this "Major General Phil Sheridan," one of [illegible] very much to the indignation of the rebel commander.

Jackson County Quota.—Messrs Dowell and Fay, the Sentinel says have enlisted in the recruiting cause, and will commence canvassing Jackson for volunteers. Enlistment already commenced well, and the prospect for raising the quota is good.

Specific Contract Law.—We see by the Sentinel that the people of Jacksonville are talking of getting up a test case upon the specific contract question and carrying it up to the Supreme Court of the United States.

Capture of the Rebel Steamer Hope

The following account of the chase and capture of the rebel steamer Hope while attempting to run the blockade at Wilmington has been sent to New York in a letter from Capt W. [illegible] Lunt of the United States steamer Eolus:

I have succeeded in capturing a very valuable prize viz the rebel side wheel steamer Hope, said to be the very best and fastest steamer owned in the whole Confederacy. She was built in England in 1864, purposely for the business of blockade-running having all the latest improvements on board of her and most magnificently fitted up in every respect with [illegible] She is very heavily [illegible] and was to be converted into a privateer the very next trip. She is twelve hundred tons and a perfect beauty [illegible] —indeed the prettiest steamer I ever saw. She has two very large engines, four boilers twenty furnaces and an immense seventy five inch cylinder. She has made but one trip and ran it in our first arrival here in the beginning of September. At the time of her capture her whole crew, including officers and two passengers, consisted of sixty six persons. She is said to run sixteen miles per hour, and was chased in the last [illegible] I captured her by a large side wheel steamer in the Gulf Stream (the Cuyler) for eleven hours but without success. Her original cost in England was $300,000 and the whole cargo is estimated at nearly the same amount. As the Eolus is alone concerned in this capture, the prize will divide a nice sum to each officer and man on board of her. The prize is the Hope of Wilmington, N. C. She sailed openly under the rebel flag. The only steamer of this kind ever captured under that flag was the Bat. All others invariably sail under the British flag. Whilst slowly patrolling our station during the night of October 21st and 22d in the Eolus I espied the Hope coming along the shore endeavoring to force her way through the blockade and into Wilmington when I headed her off and started in pursuit for as soon as she found herself discovered she tried to escape trusting of course to her superior fleetness but I kept my eye upon her and the little Eolus after her the moon, though small, favored us by her light and although running away from us rapidly at first I was enabled by the aid of my night glass to keep a faint sight of her, in the meantime getting up a full head of steam and pressing on hard after her having first sent up some rockets and fired guns in that direction, according to orders, so as to indicate her position and to invite others of our fleet to join in the chase. Only one, the Vicksburg, attempted it but found us distancing her so rapidly soon gave it up in disgust. The chase was the most exciting one on the record of this blockade. As the Eolus got up her steam she travelled on and after her fleet heeled antagonist gaining on her nicely for a time, but as the wind and heavy sea increased our chance began to look slim and we were as steadily losing ground so much so that my executive officer gave her up and advised me that to pursue her any further was useless; we might as well give it up. My answer was to him and others that so long as everything held on and hung together on the Eolus and I could keep sight of our prize so long was I determined to pursue her even if I had to chase her clean over to Bermuda or Nassau. I could see she was straining to the utmost and thought I she might break down and then be ours. My pen is inadequate to describe my feelings during that most exciting chase between hope and despair. Again did the Hope change her course to elude our vigilance but again and again did the Eolus do the same, and now with more success for we were evidently nearing her by degrees though at times I lost sight of her for a few moments again I could discern a mere speck through the dimness of the night. Perceiving our steady though slow approach the prize now bent and packed on all possible sails, and again ran away from us changing her course a little at the time to make her sails draw well. The Eolus has no masts or sails. A thought struck me we had an awning for the quarter deck and that I ordered to be spread like a sail abaft, from the railing of the hurricane deck close down to the main deck.

The steady wind and the rolling sea now favoring us more, by the prize changing her course it helped us onward a good deal, and we in our turn were now slowly gaining again upon our chase. Daylight broke at last, to my great joy and found our prize not over two miles ahead of us and I order to fire away in good earnest with thirty pounder Parrott rifles. Very soon the shot and shell flew thick and fast all around our adversary, so as to throw and splash the water on her deck and seeing the Eolus as well as her shells steadily but surely nearing her, she gave up at last and surrendered to me at six o'clock on the morning of the 22d of October. The Eolus chased the Hope five hours and ran about seventy miles to sea.

A rather amusing incident, though serious in the end to them, happened on board the Hope during the exciting chase, which I will mention here to illustrate the saying, "there's many a slip twixt the cup and the lip." Between 3 and 4 o'clock, shortly after they set all sail on board the Hope and were walking away from us so lively, they lost sight of the pursuing little Eolus altogether for a time, and were congratulating themselves over their lucky escape out of our clutches the Captain had a most sumptuous lunch set out in the cabin, and inviting all his officers and passengers down they ate of the best and drank champagne wines, and all other kinds of wines and liquors toasting Jeff Davis, drinking confusion to the Yankees and rejoicing generally over their fortunate escape from Uncle Sam's man of war, when, on ascending the deck again lo! and behold, the Eolus was closer upon them than she had been any time previous to their chagrin and dismay. The Captain now went ranting and tearing, cursing and swearing about the decks blaming everybody he met and sent fifty men down into the fireroom to pick coal and fire up more rapidly still hoping to escape; but all of no avail. The Eolus closed on him, and, as already stated just as the glorious sun was rising that morning the Hope surrendered to the Eolus. All the eyes of the fleet were upon the little Eolus and her big prize as, late in the evening, we returned to our anchorage and put a prize master and crew on board and sent the Hope to Boston.

Geo D. Prentice After the Election.—He Supports Lincoln's Administration.—The Journal of Monday November 14th, had a leading article upon the result of the election from which we extract the following:

Lincoln is now a majority candidate in all essentials, and most heartily do we beseech the high and mighty Ruler of the universe to direct and prosper all his consultations to the safety the honor and the welfare of the people, and the establishment of peace and happiness upon the best and surest foundation. It was from no factious opposition to the President that we opposed his re election. The unparalleled majority which he has received we accept as an evidence that the American people do not fear his policy as tending to the subversion of constitutional liberties, and we shall look to the future of his career with hope. The bitter rancor which has been excited will we trust, be allayed and not be again aroused. The nation has decided that it was not expedient to swap horses while crossing a raging stream and we must therefore trust our safety to the old nag in the hope that he will be able to bear us over the torrent of civil strife. We are enlisted during the entire war for the preservation of the old Union, and the old flag without a single star dimmed.

Such has been our position despite many terrible threats of personal violence and annihilation. We are for the old Constitution, too, for we believe that a State has a right to make its own laws and regulate its own affairs providing they do not conflict with the covenant of union made by our fathers for whom we have a great reverence, and in whose wisdom we have an abiding faith. It is far better to acquiesce temporarily in the requirements of erroneous legislation than to place ourselves in factious opposition which may have a tendency to produce serious movements. The true corrective is in the popular intelligence and the stern arguments of experience. To these the public press can always appeal.

We have now to co operate with the President, as we have done in the past to crush out and to bruise the head of the serpent which has struck its fangs at the peace and security of the Union and we must do this in the most effective manner, with no putting on any drags to impede the war chariot of the nation in its proud sweep towards victory. We shall await with anxiety the reassembling of Congress and the developments of future policy which will be given in the annual message of the President. We hope that they will be of such a character that loyal Kentucky can cheerfully endorse them. We have been earnest in our support of the Government and we shall be glad to have it in our power to show ourselves equally earnest in the advocacy of Lincoln's administration of the Government.

Holiday Dinners.—There is no dinner like a holiday dinner, and we can remember the annual round of Thanksgiving turkeys, which were always considered the precursors of Christmas and New Year feasts, from the time of our boyhood, when we were perhaps more anxious about those affairs than what we are now. Still, however, we are given even now to a partiality for these things and have perhaps our share of such enjoyments, of which we do not propose to speak in particular, but we must allude to a couple of dinners which have been recounted to us. At one of them a turkey was served up, which was purchased in this city a year ago, at the price of $6 00, and had been kept on good feed ever since. It was a fine fat one, and when killed and dressed weighed fifteen pounds. That was an excellent dinner, accompanied with the usual "fixens" and our friend who, by the way, is a very excellent *Judge*, avers that it did him good. The other dinner, which forms a part of this gossip, was not so fine as had been anticipated. A fat goose of late catch had been selected for the carving, and it proved very tough. The "host" declares that Holmes' couplet:

"My father's father's father had an ancient goose;
The prestige of our race:"

could in no way describe the sinews of this ancient fowl, and we infer that he was not an expert in the selection of "gaboo," if he did it that time.

The New Wharf.—The O. S. N. Company's steamer *Wilson G. Hunt* landed at the new wharf on Saturday evening for the first time, and thus opened to business one of the finest improvements in the commercial line extant. There is nothing of the kind on this coast that can equal it, and it is our pride to allude to it as being an important work not alone for this city but for the State. The main wharf is 162 x 260 feet in size, the upper wharf 120 x 200 feet. The main building is 80 x 200 feet square, of two stories' height, 14½ feet each. There are two roadways leading from Front street to the lower wharf, and one leading to the upper wharf. The amount of material constituting the work is as follows: Piles and timber 600,000 feet; sawed plank (from Oswego) 500,000 feet; iron and nails 50 tons; shingles 225,000; rock 2800 perch; sand 5283 bushels; cement 600 bbls. Aside from what rock has been used in the sinking of cribs for the permanent security of the wharf, the three last named articles have been formed into a foundation for the construction of a fine block on Front street, which will probably be commenced the ensuing season. The plans of the work were made by Mr. J. W. Brazee, and executed under the direction of Mr. John DeOrsay, Foreman. The whole cost of the improvement is estimated at $50,000.

Recorder's Court.—On Saturday the following causes were finally disposed of: M. Bernard fined $25 and costs, paid; he having failed, utterly, to reach bottom in the street, took charge of the sidewalks for the convenience of his horse, which is not considered directly in accordance with the rule and regulations of a well governed state of society. William Parker, discharged; there was no evidence in this case to show that defendant had been "violent and disorderly." Mathew Kieth, a name which may be considered in this case a *soubriquet*, was deprived of regaling himself in the open fresh air on New Year's day, being committed for that short space of time for lack of sufficient means to satisfy the penalty of a drunk. J. R. Walters, for discharging a pistol was arrested, when he was himself discharged by the Judge, and "went off" about his business. James Mahony, fined $10 and costs on prosecution for a Miss Demonaor; he lost one "discharge" but obtained another upon payment of his penalty. The State appeared in two instances—one against George Simpson on charge of assault, in which defendant paid $15 and costs; the second was a suit brought on complaint against Joseph Cunningman, who was not cunning enough to evade justice, and paid $25 and costs for having indulged in stealing a few shirts.

"Happy New Year to the Printers"—The above inscription, in handsome letters, ornamented the frosty coating of an elegant cake which was left at our office last evening by Mr. Chas. Schram, of the firm of Opitz, Shurf & Co., proprietors of the Star and Oregon Bakeries in this city. We are under obligations to the gentlemen for their kind remembrance of our fraternity, and can but extend them the same greeting. That their prosperity may continue, and that they may be enabled to interchange the hospitalities of their trade with the public for many years, and reap a deserved reward, is the wish of the Printers.

A Pleasant Affair.—On Saturday evening last the Sabbath School scholars of a private class under the instruction of Mrs. Ogden, assembled and after receiving presents from a Christmas tree prepared for them, in turn presented their teacher with a handsome volume of Scott's poetical works, handsomely bound, and mounted in silver, appropriately inscribed as a testimonial of their regard. It was a well merited compliment, to a lady who has interested many of the little ones of her neighborhood in the truths taught them at her home on many Sabbath afternoons, and a very pleasant affair for all.

County Court.—The January term of the County Court, P. A. Marquam Judge, will convene at the Court House in this city to-day at 10 o'clock A. M. The following cases appear on the docket for trial: "J. H. Lappeus *vs.* O. P. Johnson; A. L. Marshall *vs.* D. M. Fields; Hiram Smith *vs.* J. P. O. Lownsdale admr *et als*; Vandusen & Brown *vs.* Lorenzo Root; Wm. Masters *vs.* Aaron Veeder; D. M. Fields *vs.* L. Shaffer *et als*; J. D. Walling *vs.* George Palmator; Catharine Stewart *vs.* S. R. Holcomb." Several applications for confirmation of real estate sales by administrators and guardians, will be made.

Accidental Drowning.—As the steamer *Senator* was nearing her landing at Oregon City yesterday two men in a skiff came across her bow, and collided, when one of them was drowned, the other jumped upon the guard of the steamer and saved himself. The drowned man was a Norwegian, and has followed the business of ferryman at that place lately. The accident was unavoidable on the part of the steamer, which had been put in reverse motion to avoid calamity, without avail.

The Drift.—At no former time, since the memorable season of '61, has there been so much drift afloat in our river as at present. A few nights since the steamer *Cowlitz* was four hours and over in coming from the Columbia river to Portland, in consequence of dodging the drift. At one time she was surrounded with an island of floating trees, and drifted some miles before she was enable to proceed in safety. The danger of navigation under such circumstances is apparent.

Commercial.—The schooner *Crosby* sailed on Saturday, for Victoria and Nanaimo, with 100 tons of produce. To-day the Barkentine *Jane A. Falkenberg* will leave in tow of the steamer *John H. Couch*, for Springville and Astoria, and have immediate dispatch for San Francisco. She takes from this city 150 tons of freight, and from Springville will receive 75 tons.

A Snow Storm.—The steamer *Wilson G. Hunt* experienced a heavy spell of weather on Saturday while making her usual round to the Cascades. Above the mouth of Sandy there was a snow storm which extended beyond the Cascades, and continued throughout the day.

McCormick's Almanac.—The eleventh year of the publication of McCormick's Almanac began yesterday. The Number for this year is now out, and fully sustains the reputation which has been previously accredited to the work. For sale at the Franklin Book Store, Front Street.

No Paper To-Morrow.—In honor of the advent of '65, and in accordance with a custom of all civilized nations, we shall close our office from business to-day, consequent upon which no paper will be issued to-morrow.

Receding.—The Willamette river has receded about two feet since Saturday, and last evening was still going *down*.

The Pioneer Ball.—The most extensive arrangements have been made for the ball which is to take place at the Pioneer Hotel this evening, and it will certainly be *the* ball of the season. The large dining hall has been handsomely fitted up for the occasion, and as we expect, will be dedicated to Terpsichore with a brilliancy that will even dazzle the muse supposed to preside. May the festival prove a *recherche* affair, as it is intended to be.

Miss Lester, who is at present at Salem, has received invitations from Vancouver to visit that place and give readings. We believe the enterprising citizens there would treat Miss Lester with becoming hospitality, and if possible we understand she will visit them some time this week.

Willamette Theatre.—The "Lady of the Lake" was repeated at Willamette Theatre on Saturday night; the Company doing themselves credit. For this evening two fine pieces are on the bills.

The Lungs are the Great Labratory of the Human System.—When once destroyed they never can be made sound again. We should remove the first cause which tends to their destruction. When sores are forming, it is indicated by a cough or pains in the chest, or difficulty of breathing. Now, **Allen's Lung Balsam** will check these symptoms at once, if it is used in time, and prevent fatal Consumption.

LAWS OF OREGON.

Acts passed at the Third Regular Session of the Legislative Assembly.

AN ACT to provide for the construction of a Rail-Road.

Be it enacted by the Legislative Assembly of the State of Oregon:

Section 1. That for the purpose of aiding in the construction of a Railroad through the Willamette Valley, and as much farther as practicable, but not to pass to or beyond the boundaries of the State, there is hereby pledged to any corporation who shall comply with the terms and conditions provided in this act, a yearly loan for the period of five years, of a sum of money equal to a tax of one mill upon the assessable property of this State during any such year, and not exceeding the sum of forty thousand dollars in any one year.

Sec. 2. The moneys so loaned by the State to the corporation, shall be repaid at the end of five years from the time the last installment shall have been so loaned, with interest at six per cent. per annum, during the said five years; and the State shall have a prior lien over all other liens whatever, on all the real and personal property of the corporation, to be enforced as a mortgage for the repayment of the said loan and interest, and the State shall also have free transportation at all times for persons and property transported on account of the State upon the said road, during the existence or continuance of the said loan, or any part thereof.

Sec. 3. When a corporation shall be organized under the laws of this State, with a capital stock of at least two million dollars, of which one half shall be subscribed by citizens of this State, for the construction of a Railroad running north and south through the Willamette Valley, and not less than one hundred miles in length, but to extend as much farther south as practicable, not passing to or beyond the boundaries of the State; and when *such corporation* shall have completed and put into actual operation, twenty miles of such road at its northern terminus; *Provided*, such northern terminus shall be at the town of Portland, on the Willamette river, the Governor shall issue his proclamation declaring these facts, and report the same to the next session of the Legislative Assembly; and thereafter such corporation shall be entitled to receive the loans and moneys specified in this act.

Sec. 4. The corporation desiring to avail itself of the provisions of this act, must accept the same in writing within one year from the passage of the act; which acceptance *must* be filed with the Secretary of State, and signed by a majority of the incorporators of the company, or by its secretary and president, and show that the corporation is organized in compliance with this act, and that it has received bona fide subscriptions to its capital stock amounting to one million of dollars, subscribed by citizens of this State.

Approved, October 24th, 1864.

"CONSTITUTION WATER,"

THE ONLY REMEDY FOR DISEASES OF THE

BLADDER, KIDNEYS,

Gravel, Dropsical Swellings,

GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS attended this invaluable medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivalled as a remedy for the permanent cure of the maladies above-mentioned, and also—

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease in any way connected with the disorder or decay of the PROCREATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once restored, revivified and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom or an almost idiotic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor.—The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
STRANGUARY AND BURNING OR PAINFUL
URINATING,
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT, AND MUCOUS
OR MILKY DISCHARGES AFTER URINATING.

For these diseases it is truly a sovereign remedy, and *too much cannot be said in its praise*. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give praise to

CONSTITUTION WATER.

Males or Females,

Are you troubled with that distressing pain in the small of the back, and through your hips? CONSTITUTION WATER will relieve you like magic.

PERUVIAN SYRUP,

OR PROTECTED

Solution of Protoxide of Iron,

Has been used with Great Success in Curing

DYSPEPSIA,

Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Female Complaints, Chronic Diarrhoea, Boils, Scurvy, the Prostrating Effects of Lead or Mercury,

GENERAL DEBILITY,

and all Diseases which require a

Tonic and Alterative Medicine.

THE PROOFS OF ITS EFFICACY ARE SO NUMEROUS, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The class of diseases for which the Syrup provides a cure, is precisely that which has so often baffled the highest forms of medical skill. The facts are tangible, the witnesses accessible, and the safety and efficacy of the Syrup incontrovertible.

From well-known Citizens of Boston.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

Certificate of Dr. Hayes.

It is well known that the Medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air, and that to maintain a Solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point is attained by combination in a way before unknown; and this solution may replace all the proto-carbonates, citrates and tartrates of the Materia Medica. A. A. HAYES, M. D.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DIScovery of medical chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most valuable article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is an active [illegible]

HEART,

LIVER, KIDNEYS,

DIGESTIVE ORGANS and GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty, that it was published in the Medical Journals, and its use recommended to practitioners (see "American Medical Monthly," July 6, 1856, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increasing nutrition, and the body is the result of the employment of Iodine. The patient recovers flesh, strength and color, hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

ALLEN'S

LUNG BALSAM!

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,

Asthma, Croup,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED not to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.
